

**Bare® by Solo®**  
Eco-Forward® Commercially Compostable  
VS SSPLA Paper Food Containers

## PLANT MADE. PLANET APPROVED.

- **Compostable in a Commercial Compost Facility** – Appropriate commercial composting facilities may not exist in your community. Please check with your local municipality. Not suitable for backyard composting.
- **Plant-Based Lining** – Container lined with PLA (poly-lactic acid), a plant-based resin that acts as a moisture barrier to prevent leaking, replacing the petroleum-based lining typically found in paper food containers.
- **Sustainability Alternative** – Made from 100% plant-based renewable resources and made with fibers certified under the SFI® chain of custody.
- **Third Party Certifications** – Meets the ASTM standard D6868 for compostability by the Biodegradable Products Institute (BPI).

# Bare® Eco-Forward® Commercially Compostable VS SSPLA Paper Food Containers

## PLANT MADE. PLANET APPROVED.

Bare® by Solo® Eco-Forward® VS Single Sided PLA lined food containers are perfect for holding hot foods (with a maximum temperature of 205°F). These versatile containers can also be used with cold food for immediate consumption. The PLA lining on the inside of the container acts as a moisture barrier to prevent leaking, while the matte finish on the outside of the container conducts less heat to your fingertips. The squat profile and wide mouth make this product easy for operators to fill and easy for customers to eat from. These containers are compostable in a commercial composting facility which may not exist in your community. Please check with your local municipality. Not suitable for backyard composting.

### Rolled Rim

*Gives rigidity to the container and ensures secure leak-resistant lid fit*

### Versatile Applications

*Serves hot or cold foods*

### Moisture Barrier

*Container lined with polylactic acid on the inside to prevent leaking*

### Wide Mouth and Squat Profile

*Easy to serve, easy to eat*

### Sustainability Alternative

*Commercially compostable containers made from 100% plant-based renewable resources and made with SFI-certified paperboard*

### Variety

*Containers available in multiple sizes with multiple lid styles made with different materials*
