

The right choice for your university's research facilities

Sustainability matters to you and your university. That's why we created RIGHTCYCLE* by KIMBERLY-CLARK PROFESSIONAL*. It's the first large-scale recycling program for non-hazardous laboratory waste and it's designed to help you achieve, or even exceed, your sustainability goals.

To start your sustainability journey, make the switch to KIMBERLY-CLARK* Nitrile Gloves featuring waste-reducing, environmentally responsible packaging.

Waste Reducing, Space-Saving Solutions

At KIMBERLY-CLARK PROFESSIONAL*, we offer 100% more gloves per case by increasing the number of gloves from 100 to 200 per box.

Environmentally Friendly Packaging

9.5" Gloves - 200 count

12" Gloves - 100 count

Waste Savings Using STERLING® 9.5" Nitrile Gloves†

	Cases per Month	Saving: Lbs per Year	Saving: Tons per Year
WASTE	25	2,637	1.2
	50	5,274	2.4
	100	10,548	4.8
	150	15,822	7.2
	200	21,096	9.6

† Compared to KIMBERLY-CLARK® PFE 9.5" Latex Exam Gloves, waste savings will be greater for STERLING® 12" gloves.

Exceptional Workplaces®

Take the next step in your waste reduction journey and choose RIGHTCYCLE* by KIMBERLY-CLARK PROFESSIONAL*

You can recycle:

- Laboratory nitrile gloves and apparel

We divert these items from your waste stream and the landfill, and turn them into the raw materials used to create eco-friendly consumer products:

- Colorful, plastic Adirondack chairs and benches
- Bulk plastics, trashcans, composite wood and other items

KIMBERLY-CLARK PROFESSIONAL* helps you move toward zero-landfill by making it as easy as 1-2-3:

- 1 CONTACT**
your local KIMBERLY-CLARK PROFESSIONAL* representative or email rightcycle@kcc.com to learn how our innovative products can help you reduce waste.
- 2 COLLECT**
recyclable products in containers strategically located throughout your university's research labs.
- 3 PLACE**
the containers on a pallet. When it is full, email rightcycle@kcc.com for the address of the nearest RIGHTCYCLE* facility and then ship your pallet.

Encourage Student Involvement with the Green Patrol

Through an innovative program called the Green Patrol, we offer ways for students and other members of the university community to participate in hands-on events that:

- Promote environmental responsibility and sustainability
- Build community and encourage activism
- Strengthen relationships on campus and in the community
