

## 1. Identification

Product name JAVEL 12%  
 Use WHITENING AGENT FOR LAUNDRY  
 Supplier Groulx Robertson-Venus  
 A division of GTR Chemical Solutions Inc.  
 190 Oneida drive, Pointe-Claire  
 Quebec, Canada H9R 1A8  
 Emergency phone number: CANUTEC (613) 996-6666

Code 10BL001L

## 2. Hazard identification

Product classification Serious eye damage / Eye irritation - Category 1  
 Skin corrosion / irritation - Category 1  
 Specific target organ toxicity - Single exposure - Category 3

Signal word **DANGER**

Hazard statement H314 - Causes severe skin burns and eye damage.  
 H335 - May cause respiratory irritation.

Pictogram

Precautionary statement P260 - Do not breathe dust / fumes / gas / mist / vapours / spray.  
 P264 - Wash hands and face thoroughly after handling.  
 P271 - Use only outdoors or in a well-ventilated area.  
 P280 - Wear protective gloves / protective clothing / eye protection / face protection.  
 P301+P330+P331 - **IF SWALLOWED**: Rinse mouth. Do NOT induce vomiting.  
 P303+P361+P353 - **IF ON SKIN (or hair)**: Take off immediately all contaminated clothing. Rinse skin with water/ shower.  
 P363 - Wash contaminated clothing before reuse.  
 P304+P340 - **IF INHALED**: Remove person to fresh air and keep comfortable for breathing.  
 P312 - Call a POISON CENTER or doctor if you feel unwell.  
 P305+P351+P338 - **IF IN EYES**: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.  
 P310 - Immediately call a POISON CENTER or a doctor.  
 P403+P233 - Store in a well ventilated place. Keep container tightly closed.  
 P405 - Store locked up.  
 P501 - Dispose of contents / container according to all applicable regulations.

## 3. Composition / Information on ingredients

Ingredient name	Cas number	% (w/w)
Sodium hypochlorite	7681-52-9	7 - 13
Sodium hydroxide	1310-73-2	0.5 - 1.5

Exact percentages are being withheld as trade secret information

#### 4. First-aid measures

Eyes contact	Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 30 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.
Skin contact	In case of contact, immediately flush skin with plenty of water for at least 20 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Get medical attention immediately.
Inhalation	In case of inhalation of fumes or dust, bring person to aerated area. If she does not breathe, administer mouth-to-mouth resuscitation. If breathing is difficult, provide oxygen. Call a doctor.
Ingestion	In case of ingestion, rinse mouth. Drink a glass of water. Do not induce vomiting and see a doctor. Never administer anything orally to someone unconscious or in a convulsive state.
Most important symptoms and effects	See section 11.
Indication of immediate medical attention and special treatment needed	No further information available.

#### 5. Fire-fighting measures

Suitable extinguishing media	To fight a fire, use extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	It is not specified whether or not there is an inappropriate method of extinguishing this product.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Wear self-contained breathing apparatus, MSHA/NIOSH (approved or equivalent) and full protective gear.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Wear protective equipment listed in section 8. Keep unnecessary personnel and unprotected persons away.
Methods and materials for containment and cleaning up.	Isolate area. Keep unnecessary personnel away. Ensure adequate ventilation. Stop the flow of material, if this is without risk. Absorb with inert material such as vermiculite, sand or soil. Put in adequate container. Wash contaminated area.

#### 7. Handling and storage

Precautions for safe handling	Put on appropriate personal protective equipment (see section 8). Use in a way to prevent splashing. Eating, drinking and smoking should be prohibited in areas where this material is handled or stored. Workers should wash hands and face before eating, drinking and smoking. Keep in the original container or an approved alternative, kept tightly closed when not in use. Do not reuse empty container.
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

#### 8. Exposure controls / Personal protection

##### Occupational exposure limits (by ingredients)

Ingredient name	TWAEV	STEV
Sodium hypochlorite	-	-
Sodium hydroxide	-	P 2 mg/m <sup>3</sup>

Source of data : RSST

P = ceiling value that should not be exceeded for any amount of time.

Appropriate engineering controls

Use only with ventilation adequate to keep air concentration below STEV if use generates vapor or mists. If STEV is exceeded, wear NIOSH approved respirator.

### Individual protection measures

Eyes & face

Wear chemical goggles and face shield.

Skin

Wear impervious gloves and impervious apron.

Respiratory

If airborne exposures cannot be kept below permissible exposure limits, use a NIOSH approved respiratory protection.

Other

Provide eye wash facility and safety shower near the places where the product is used. Normal work clothes (long-sleeved shirt, long pants and closed shoes) are recommended. Contact lenses should not be worn when handling this product.

## 9. Physical and chemical properties

Physical state	Liquid	Evaporation rate	Not available	Relative density	1.08 g/mL
Colour	Yellowish	Flammability	Not flammable	Solubility	Soluble in water
Odour	Chlorine odor	Upper flammability limits	Not available	Partition coefficient - n-octanol/water	Not available
Odour threshold	Not available	Lower flammability limits	Not available	Auto-ignition temperature	Not available
pH	11.5 - 12.5	Upper explosive limits	Not available	Decomposition temperature	Not available
Melting point	Similar to water.	Lower explosive limits	Not available	Viscosity	Not available
Initial boiling point and boiling range	Similar to water.	Vapour pressure	Not available		
Flash point	Not applicable	Vapour density	Not available		

## 10. Stability and reactivity

Reactivity	Release chlorine gas upon contact with acid or strong oxidizer.
Chemical stability	Slowly decompose releasing chlorine.
Possibility of hazardous reactions	No dangerous reactions known.
Conditions to avoid	Avoid excessive heat and direct exposure to light.
Incompatible materials	Reactive with oxidizing agents and acids.
Hazardous decomposition products	Dichlorine, hydrochloric acid

## 11. Toxicological information

### Potential Health Effects

Eyes contact

Corrosion of the eyes. Can provoke damage to the eyes that leads to blindness.

Skin contact

This product is irritating and corrosive to the skin. It causes severe burns with deep ulcerations. Irritative contact dermatitis may occur in repeated contact with this product or its solutions. Dermatitis may cause redness, itching, peeling and papules. Exposure to dust or fog can cause multiple small burns on the skin with a temporary loss of hair.

Inhalation

Inhalation immediately irritating to the respiratory tract. Swelling or spasms of the larynx leading to upper-airway obstruction and asphyxia can occur after high-dose inhalation. Inflammation of the lungs and an accumulation of fluid in the lungs may also occur.

Ingestion Corrosion of the digestive tract with severe pain, dyspnea, vomiting, nausea, possible perforation of the esophagus and stomach . The effects can lead to death.  
Chronic Exposure No further information available.

#### Acute toxicity (per ingredient)

Ingredient	Acute toxicity
Sodium hypochlorite	LD 50 Oral : 5000 mg/kg, Rat @ 12% solution
Sodium hydroxide	LD 50 Oral : 500 mg/kg, Rabbit LD 50 Dermal : 1350 mg/kg, Rabbit

### 12. Ecological information

Ecotoxicity No further relevant information available.  
Persistence and degradability No further relevant information available.  
Bioaccumulative potential No further relevant information available.  
Mobility in soil No further relevant information available.

### 13. Disposal considerations

Disposal methods Dispose of contents/container in accordance with local / regional / national / international regulations.

### 14. Transport information

#### TDG Classification

UN Number	Shipping name	Class	Packing group
UN1791	SODIUM HYPOCHLORITE SOLUTION	8	III

### 15. Regulatory information

WHMIS classification Serious eye damage / Eye irritation - Category 1  
Skin corrosion / irritation - Category 1  
Specific target organ toxicity - Single exposure - Category 3  
Other applicable regulations No further data available.

### 16. Other information
