

1. Identification

Product name PRO-SCRUB
Use BATHROOM CLEANER
Supplier Groulx Robertson-Venus
A division of GTR Chemical Solutions Inc.
190 Oneida drive, Pointe-Claire
Quebec, Canada H9R 1A8
Emergency phone number: CANUTEC (613) 996-6666

Code 10VE4043

2. Hazard identification

Product classification Serious eye damage / Eye irritation - Category 1
Skin corrosion / irritation - Category 1
Signal word **DANGER**
Hazard statement H314 - Causes severe skin burns and eye damage.
H290 - May be corrosive to metals.

Pictogram

Precautionary statement P234 - Keep only in original container.
P260 - Do not breathe dust / fumes / gas / mist / vapours / spray.
P264 - Wash hands and face thoroughly after handling.
P280 - Wear protective gloves / protective clothing / eye protection / face protection.
P301+P330+P331 - **IF SWALLOWED**: Rinse mouth. Do NOT induce vomiting.
P303+P361+P353 - **IF ON SKIN (or hair)**: Take off immediately all contaminated clothing. Rinse skin with water/ shower.
P363 - Wash contaminated clothing before reuse.
P304+P340 - **IF INHALED**: Remove person to fresh air and keep comfortable for breathing.
P305+P351+P338 - **IF IN EYES**: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.
P310 - Immediately call a POISON CENTER or a doctor.
P390 - Absorb spillage to prevent material damage.
P405 - Store locked up.
P501 - Dispose of contents / container according to all applicable regulations.

3. Composition / Information on ingredients

Ingredient name	Cas number	% (w/w)
Citric acid	77-92-9	5 - 10
Urea hydrochloride	506-89-8	7 - 13
Alcohols (C12-15 linear saturated) ethoxylate	68131-39-5	1 - 5

Exact percentages are being withheld as trade secret information

4. First-aid measures

Eyes contact	Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 30 minutes, occasionally lifting the upper and lower eyelids. Get medical attention immediately.
Skin contact	In case of contact, immediately flush skin with plenty of water for at least 20 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Get medical attention immediately.
Inhalation	In case of inhalation of fumes ou dust, bring person to aerated area. If she does not breath, administer mouth-to-mouth resuscitation. If breathing is difficult, provide oxygen. Call a doctor.
Ingestion	In case of ingestion, rinse mouth. drink a glass of water. Do not induce vomiting and see a doctor. Never administer anything orally to someone unconscious or in a convulsive state.
Indication of immediate medical attention and special treatment needed	No further information available.

Most important symptoms and effects

Eyes contact	Corrosion of the eyes. Can provoke damage to the eyes that leads to blindness.
Skin contact	Can cause severe local irritation, burns and blisters.
Inhalation	Causes irritation of the respiratory tract, with coughing and watery eyes. May cause chemical burns to the respiratory tract.
Ingestion	Causes gastrointestinal irritation with nausea, vomiting, hypermotility, and diarrhea. Causes burns in the gastrointestinal tract.

5. Fire-fighting measures

Suitable extinguishing media	Spray water, carbon dioxide, foam, dry chemicals.
Unsuitable extinguishing media	It is not specified whether or not there is an inappropriate method of extinguishing this product.
Specific hazards arising from the chemical	No further relevant information available.
Special protective equipment and precautions for firefighters	Wear self-contained breathing apparatus, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Wear protective equipment listed in section 8. Keep unnecessary personnel and unprotected persons away.
Methods and materials for containment and cleaning up.	Isolate area. Keep unnecessary personnel away. Ensure adequate ventilation. Stop the flow of material, if this is without risk. Absorb with inert material such as vermiculite, sand or soil. Put in adequate container. Wash contaminated area.

7. Handling and storage

Precautions for safe handling	Put on appropriate personal protective equipment (see section 8). Use in a way to prevent splashing. Eating, drinking and smoking should be prohibited in areas where this material is handled or stored. Workers should wash hands and face before eating, drinking and smoking. Keep in the original container or an approved alternative, kept tightly closed when not in use. Do not reuse empty container.
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls / Personal protection

Occupational exposure limits (by ingredients)

Ingredient name	TWAEV	STEV
Citric acid	-	-
Urea hydrochloride	-	-
Alcohols (C12-15 linear saturated) ethoxylate	-	-

Source of data : RSST

P = ceiling value that should not be exceeded for any amount of time.

Appropriate engineering controls

Use only with ventilation adequate to keep air concentration below STEV if use generates vapor or mists. If STEV is exceeded, wear NIOSH approved respirator.

Individual protection measures

Eyes & face

Wear chemical goggles and face shield.

Skin

Wear impervious gloves and impervious apron.

Respiratory

If airborne exposures cannot be kept below permissible exposure limits, use a NIOSH approved respiratory protection.

Other

Provide eye wash facility and safety shower near the places where the product is used. Normal work clothes (long-sleeved shirt, long pants and closed shoes) are recommended. Contact lenses should not be worn when handling this product.

9. Physical and chemical properties

Physical state	Liquid	Evaporation rate	Not available	Relative density	1.06
Colour	Violet	Flammability	Not flammable	Solubility	Soluble in water
Odour	Pleasant odor	Upper flammability limits	Not available	Partition coefficient - n-octanol/water	Not available
Odour threshold	Not available	Lower flammability limits	Not available	Auto-ignition temperature	Not available
pH	1.5 - 2.0	Upper explosive limits	Not available	Decomposition temperature	Not available
Freezing point	Not available	Lower explosive limits	Not available	Viscosity	Not available
Initial boiling point and boiling range	Not available	Vapour pressure	Not available		
Flash point	Not available	Vapour density	Not available		

10. Stability and reactivity

Reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability

Stable under normal conditions.

Possibility of hazardous reactions

No dangerous reactions known.

Conditions to avoid

No specific data.

Incompatible materials

Alkali and sodium hypochlorite.

Hazardous decomposition products

Under normal conditions of storage and use, hazardous reactions will not occur.

11. Toxicological information

Potential Health Effects

Chronic Exposure No further information available.

Acute toxicity (per ingredient)

Ingredient	Acute toxicity
Citric acid	LD 50 Oral : 3000 mg/kg, Rat
Urea hydrochloride	No data available
Alcohols (C12-15 linear saturated) ethoxylate	No data available

12. Ecological information

Ecotoxicity No further relevant information available.
Persistence and degradability No further relevant information available.
Bioaccumulative potential No further relevant information available.
Mobility in soil No further relevant information available.

13. Disposal considerations

Disposal methods Dispose of contents/container in accordance with local / regional / national / international regulations.

14. Transport information

TDG Classification

UN Number	Shipping name	Class	Packing group
UN3264	CORROSIVE LIQUID, ACIDIC, INORGANIC, N.O.S. (UREA HYDROCHLORIDE)	8	III

15. Regulatory information

WHMIS classification Serious eye damage / Eye irritation - Category 1
Skin corrosion / irritation - Category 1
Other applicable regulations No further data available.
