

Exceptional
Workplaces[®]

It's Modern. It's Modular. It's the Mod* Dispensing System.

The promise is simple: deliver a customized washroom experience to everyone, everywhere. Nurses caring for patients, employees in office buildings, factory workers on break and fans cheering for their team – all have exactly what they need, when they need it.

You design the system you need.

The innovative Mod* Hard Roll Towel System has internal dispensing modules that plug and play to give you the flexibility to build a dispenser customized to meet your requirements. So as your needs change, your dispensers can change with them.

NG-Series:

Great for office buildings and high traffic facilities. Features two delivery options: power assist and hanging pre-cut sheet.

E-Series:

Electronic motion-activated dispensing with an unexposed sheet option that's ideal for healthcare facilities.

M-Series:

Controlled manual delivery offers the hygiene of touchless dispensing without the batteries.

The Healthy Workplace Project^{*}

The Mod* System combines touchless technology with the bacteria-reducing benefits of drying with paper towels. This promotes better hand and surface hygiene and supports **The Healthy Workplace Project^{*}**, a patent-pending program that educates and encourages employees to **HYGIENIFY![®] wash, wipe, sanitize** to help break the chain of germ transmission.

Loaded with Innovation.

The Mod* System offers one of the highest capacity towels around, a Scott[®] 1,150 foot roll towel and includes a stub roll feature that reduces waste and cost. That means fewer change outs and more satisfied users.

mod^{*}
Dispenser System
Designed for everyone. Built for you.

Why move to the Mod* System?

- Flexibility to change modules as needs change – without changing out the entire dispenser
- The NG-Series “power assist” setting offers the longest battery life – 4 times longer than the enMotion® dispenser
- Quieter than enMotion® and Tork Intuition systems
- ADA compliant

The Mod* System offers complementary designs in skin care, bathroom tissue and paper towel formats.

Sustainability

We are proud to be the first major towel and tissue manufacturer in North America to introduce products made with 20 percent plant fiber, resulting in the use of up to 20 percent fewer tree fibers or recycled fibers than conventional products. Premium quality Kleenex® Brand towels used in the Mod* System are made with 20% plant fiber.

Kimberly-Clark warrants that its products (1) comply with K-C's standard specifications as of the delivery date to K-C's authorized distributors/direct purchasers except for auto darkening filters which shall be warranted for two years from date of end user purchase (verified by valid sales receipt) and powered air purifying respirators which shall be warranted for one year from date of end user purchase (verified by valid sales receipt); (2) comply with all K-C labeling representations; and (3) are manufactured in compliance with all applicable federal, state, and local laws in effect at the time and place of manufacture of the products. **THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.** K-C is not liable for any kind of special, incidental, or consequential damages. K-C's liability for breach of contract, tort or other cause of action shall not exceed the product purchase price. Purchasers and users are deemed to have accepted the above warranty and limitation of liability, and cannot change the terms by verbal agreement or by any writing not signed by K-C. To the extent required by applicable law, K-C does not limit its liability for death/injury resulting from K-C's negligence.
