

WF20T FULLY AUTOMATIC CASE FORMER/CASE ERECTOR

Wexxar Bel®

The WF20T is a fully automatic case former/case erector with tape head and toolless changeover with speeds of up to 20 cases per minute. For the last 25 years, Wexxar's Pin and Dome machines have become the standard for major customers who demand the highest quality output and maximum up-time.

With the reliability of the Pin and Dome system, box one is ready to run every time. A color-coded, tactile guide offers a more efficient, friendly set-up for operators. The Tilt-out Tape Head (for the tape version), and the easy kip handle adjustments are all extra details that allow for a completely tool-less, convenient changeover, in less than 5 minutes.

FEATURES

- * **Wexxar's Pin and Dome** – case opening technology provides reliable case separation, squaring and forming
- * **Dynamic flap-folding** – for consistently square cases even for recycled or double wall cases
- * **Safety systems** – including fully interlocked guard doors and emergency stops on both sides of the machine
- * Tool-less, color coded size changeover in under 7 minutes with user-friendly on machine pictorial guides
- * Premium adhesive systems
 - Tape version: DEKKA high performance tape head
 - Hot melt version: Nordson glue systems
- * Designed and built in North America with premium materials
