

PHYSICAL PROPERTIES*	TEST METHOD	VALUE
Nominal Thickness		1/32"
Nominal Foam Density (lb/ft <sup>3</sup> )		1.3
Backing		.7 mil Silver Polyethylene Film
Dart Drop (grams)	ASTM D3575	70
Tensile Stress (psi)	ASTM D3575	
MD		240
CMD		90
Tear Strength (psi)	ASTM D3575	
MD		35
CMD		50

\* The data presented for these products is for unconverted Sealed Air Corporation brand polyethylene foam products. While values shown are typical of these products, they should not be construed as specification limits.
