**CARROUSEL**  
HYGIENE & SANITATION

# TRYING THEM IS ADOPTING THEM!

## DISPENSERS

These dispensers, specially designed for our soaps, can be installed in any environment where hand sanitizing and cleaning is required. Available in automatic (white) or manual (white and black) versions.

## CARROUSEL SOAPS

These new, lightly scented hand soaps come in two formats, foam and gel. When you use them, they produce a rich foam to deeply cleanse the skin while softening it with emollient agents.

## AND COMPATIBLE DISINFECTANTS

These hand disinfectants, compatible with our new dispensers, will prevent the spread of bacteria by effectively killing harmful germs.
